Grievance Procedures and Violence or Bullying procedures

The purpose of these procedures is to provide a systematic process to dealing with grievances and preventing violence and bullying in our site. This includes identification, assessment and control of violence and bullying.

If you have a problem with someone at Kindy, we use the same approaches that we do when we deal with children’s grievances. The skills we teach them are the same skills they will need to use throughout their lives.

We need to use a calm, approach in dealing with conflicts. It is also usually better to deal with things as they arise. You do not have to “put up with things” that are inappropriate. If someone says or does something that offends, upsets or bothers you, talk to the person concerned, letting them know your concerns. You should let them know the behaviour or action that concerned you and how it made you feel. You may also discuss some suggestions for resolving the conflict. For example . . . “I’d like to talk to you about (behaviour/action). It made me feel (feeling) when you said/did this”. Allow the other person to respond. Then perhaps come up with a solution to work towards.

Remember the person may have not even realised that their actions have been of concern to anyone. In most cases, problems can be resolved early by talking them through.

**Underlying principles of these procedures are, at Kadina Preschool:**
- Everyone should be treated with respect.
- Everyone has the right to feel safe.
- Grievance meetings will be suspended if people behave in an insulting, threatening or offensive manner.
